

Finish
High-gloss white MFC

Design Detail
Single-point
suspension enabling
speed of configuration.

Fully-concealed
vertical edge profiles
ensuring a flat wall
effect (with no visible
profiles) when panels
are closed.

Rw 53dB creating
the best in acoustic
separation.

Gorgeously Glossy.
This suite of three linked meeting rooms makes a quiet but definite statement.

Eschewing the traditional brand-heavy and strident décor of many training and conference facilities, these meeting rooms have an almost zen-like calm, with all required services and equipment incorporated exactly where needed in the most unobtrusive style. These are good spaces to be in for concentration and focus.

The Creatif Solo moving walls have proved the perfect choice. Easy to operate and acoustically excellent, they demonstrate perfectly the advantages of Creatif's unique expanding wall jamb...slim, unobtrusive, easy to operate and totally reliable unlike the typical telescopic panel found on less advanced moving wall systems.

A high gloss white laminate surface was specified to complement the refined, quality ambience and to ensure an immaculate appearance for the long term...however many times the panels are opened and closed.
