

Finish

Green MFC at top and bottom of panels, separated by a strip of drywipe board

Design Detail

Solo 110 moving walls

We made them Happy, by giving them flexible space.

The concept of flexible space fitted perfectly with the ethos of this client. With the amazing range of surface treatments available on a Solo 110 Moving Wall installation, we were able to meet the brief of a striking, eye-catching design that would not compromise Solo's immensely capable performance.

With a high quality Egger laminate placed above and below a wide strip of white drywipe laminate, the wall becomes an innovative focal point for ideas, yet can be moved discreetly aside when a larger space is required.

And as usual, the project finished on time and on budget. So everyone was happy.
