

Creatif Snow Software

Snow Software are a leading global software asset management solutions company.

Following an extended period of growth, Snow Software decided to relocate their UK offices to a 13,000 sq ft site within The Capital Building in Bracknell.

Fit-out specialists Office Principles were tasked with providing a practical and exciting environment for staff. Due to the internal design guidelines imposed by the client, Creatif were approached to help diminish reverberation within the space in the form of our ReSound acoustic ceiling rafts.

The vast range of colour and shape options complimented the aesthetics of the space, whilst enhancing acoustic comfort.
