

# Aberdein Considine

## A Monument to Good Acoustics

Featured Product(s):  
Acoustic aRT

Partner(s):  
Space and Solutions

As Scotland's biggest estate and leasing agent, Aberdein Considine is well aware of the importance of making first impressions count.

When the financial firm made the decision to renovate their Stirling branch, they approached Space and Solutions to oversee the project.

Knowing about our specialism in acoustics, Space asked us to ensure that the branch's boardroom looked and sounded impressive.

To make that happen, we supplied a large, Acoustic aRT panel, printed with artwork of Stirling's historic National Wallace Monument.

Once installed, the Acoustic aRT panel not only made a visual statement, it helped reduce reverberation as well.
