

BMI

Clean Looking Acoustics

Featured Product(s):
Whisper

Partner(s):
Turner Legg

BMI is the largest manufacturer of flat and pitched roofing and waterproofing solutions throughout Europe, with a global presence.

When fitting out their offices at the iconic Thames Tower in Reading, workplace specialists Turner Legg approached us to solve a number of acoustic issues associated with the building's exposed ceilings.

Using our Whisper polyester acoustic rafts we supplied a mixture of grey and pastel blue ceiling rafts to absorb sound within the main open plan area of the space while complimenting the clean aesthetic.

A number of vertically-hung acoustic baffles - also made from Whisper - also helped to eliminate noise within lighting-wrapped ceiling void, providing acoustic comfort while also creating a striking design.
