

Ingram Micro, Milton Keynes Corporate Branding for a Corporate Space

Featured Product(s):

Domino
Solo

Partner(s):

Area

Ingram Micro is one of the largest wholesale technology distributors, providing hardware for the likes of global giants Acer, Apple, Microsoft and Samsung.

Although the business is based in California, Ingram Micro has a substantial presence in the UK.

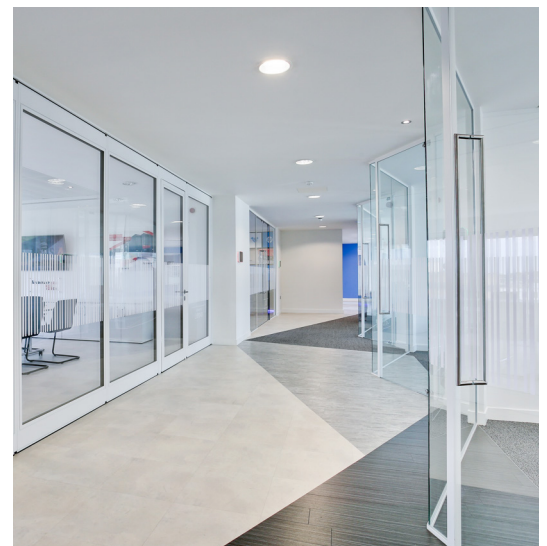

The company's offices in Milton Keynes underwent a recent renovation as they wanted to introduce flexible space and light transfer into the design.

A combination of Creatif's glass operable wall, Domino, and Solo - our market-leading moving wall - effectively addressed these issues.

As a finishing touch, we applied a bright, clean and crisp canvas finish to the Solo's panels to create

a stunning focal point within the meeting room.

And as both the Domino and Solo moving walls are Creatif manufactured systems, they also provide acoustic comfort.
